## PERSONAL PROJECTS

### NEWS Application: TAAZA KHABAR

Developed a news application using ReactJS where we can see news of all categories. Used Routers Switches and an API to fetch the updated news for all the time. GitHub rep: <https://github.com/SachinWariyal/Taaza-Khabar-NEWS.git>

### TEXT-UTILS: Text Analyzing Application

Developed a Text Utils named app where we can put our texts or paragraphs and analyze and update the data very quick in single click. We can perform various operations like Change to Upper , lower case. Remove Whitespaces from our paragraphs and many more. GitHub rep: <https://github.com/SachinWariyal/TextUtils.git>

### Zomato-Clone

Currently working on developing a Clone of Zomato using React js. Working on Front end part as of now.

## CERTIFICATES/COURSES

### Data Structures and Algorithms - Self Paced

Data structures enable us to organise and store data, whereas algorithms enable us to process that data in a meaningful sense

### Front-End Web UI Frameworks and Tools: Bootstrap 4

Basics of Bootstrap, setting up a web project using Bootstrap, Responsive design and the Bootstrap grid system.
